## **DETAILED ACTION**

## Allowable Subject Matter

## Claims 1-52 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1, 16, 28, 31, 34, and 37, the prior art of record, taken either alone or in combination, fails to disclose or render obvious an interferometric apparatus and corresponding method comprising a set of optics that receives a first beam split off from an input beam and directs it off a reflector, this set of optics comprising a pair of beamsplitters and a fold optic that enable a reduction in the shear and displacement encountered by the light beams due to any misalignment of the reflector from the first, nominal alignment, in combination with the rest of the limitations of the above claims.

As to claims 21 and 39, the prior art of record, taken either alone or in combination, fails to disclose or render obvious an interferometric apparatus and corresponding method comprising a first and second set of optics, one set in conjunction with a measurement mirror and the other set in conjunction with a reference mirror, these optics receiving an intermediate beam split from an input beam, these optics comprising at least two reflecting surfaces and at least one beamsplitter positioned to allow for multiple reflections off the respective mirror and to compensate for relative beam shear between the beams due to the alignment of the mirrors, in combination with the rest of the limitations of the above claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Application/Control Number: 10/603,120 Page 3

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Pat. 6,791,693 to Hill and US Pat. 6,806,960 to Bagwell et al.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Lyons whose telephone number is 571-272-2420.

The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J. Toatley can be reached on 571-272-2800 ext. 77. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
